BENEFITS & FEATURES

New Sustainable Filter in a Squeezable Bottle...

*The GREEN standard for "to-go" drinking water...
Hard containers are more durable than plastic,
but they are not the BEST for convenience and ease of use.*

1

Easy to use

- Tap water costs 1900 times less than bottled water
- Save hundreds of dollars per year spent on drinking water
- Retail \$25.00....now you can drink for pennies per bottle
- These savings will help to offset cost of other necessities

2

Environmental Impact Reduction

Return on Intention for generations to come

- One filter replaces 355 18 oz. Plastic bottles of drinking water¹
- Will help reduce the carbon footprint impact and disposal waste we are experiencing from plastic bottles.... 1500 per second sent into our landfills and our oceans, like that of the Pacific garbage patch²

3

No More Health Risks When Drinking Water

- Safe to use for travel in any country, anywhere
- EPA & NSF give highest rating to filter...removed 99.99% of contaminants like chlorine taste and odor, heavy metals, arsenic, cryptosporidium, giardia, cyst and spores found in rivers and lake water...
- BPA free polyethylene plastic bottle

GREEN FACTS...www.earth-policy.org

- We use over 17 million barrels of oil to produce 50 billion plastic water bottles
- Recycling plastic bottles adds over 2.5 billion lbs of CO2 just collecting them
- 1500 plastic bottles per second are discarded into our environments
- We now have 6 times more plastic by weight than plankton in the Pacific garbage patch..twice the size of Texas and 90' deep.

BODY GLOVE

Water Filtration System

This Portable 18 oz. Water Filtration Sport Bottle is the answer to today's need for great-tasting, safe drinking water wherever you go!. The Body Glove water filter replaces up to 378 liters of bottled water.

The Filter Bottle is designed with our Exclusive Ionic-Adsorption Micro-Filtration Technology producing a “filtering” reduction of up to 99.99% of most harmful contaminants for up to 50 gallons at just pennies a gallon!

The Body Glove filter bottle is ideal for Active Lifestyles... it's refillable! The “#4” RECYCLABLE, low-density polyethylene bottle is PBA-FREE and all parts of the system are made of FDA approved, environmentally safe materials. Using the Body Glove portable water filter system provides peace-of-mind that you will be receiving clean, great-tasting quality water wherever you go, guaranteed.
